

Dear Parents,

We were so glad to have (enter child's first name here) join us in Bible class today. It is always a pleasure to see each child enjoy learning about the Bible.

Our focus today was from Genesis, chapter 1. The children learned that God was here from the beginning and that He created light, space, land, seas, rivers, sun, moon, stars, and fish, birds, and other animals. He let the land produce plants and trees. And last, but not least, God made Adam.

The craft today was to place small, plastic replicas into a clear, unbreakable jar to represent God's creations in the seas; such as fish, sea creatures, and other ocean life. The lids have been glued by our helpers to help insure safety when handling. However, please be aware that the containers are not foolproof and could leak fluid.

The memory verse for today was from Genesis 1:31a. "God saw all that He had made, and it was very good." Please continue to help your child speak aloud this verse several times during this week.

Thank you for allowing us to be a part of your child's Christian education. We look forward to seeing (enter child's first name here) again next week at our Bible class time of 9:30 a.m.

Sincerely,
